GENERAL INTRODUCTORY NOTES.

1. **Scope of Accounts.**—The Annual Statement of the Trade of the United Kingdom is normally issued in four volumes, but it has been decided that Volumes I, II and IV for 1940 shall not be published.

Volume I contains summaries of the import and export trade, Volume II gives detailed statements respecting articles imported and re-exported, Volume III gives similar details of Exports of the Produce and Manufactures of the United Kingdom and Volume IV gives details of the trade with individual countries.

Official accounts are maintained under each description of goods separately distinguished in the official Import and Export List and therein classified as follows :—

Class I.—Food, Drink and Tobacco.

Class II.—Raw Materials and Articles Mainly Unmanufactured.

Class III.—Articles Wholly or Mainly Manufactured.

Class IV.—Animals, not for Food.

Class V.—Parcel Post (see Note 5).

Certain descriptions of goods are, however, aggregated in this volume under general headings and these aggregations are denoted by the letter (a).

2. **Countries to which Exports are credited.**—Exports are classified as despatched to the place or country of final destination, that is to say, the place or country to which the goods are actually consigned, with or without breaking bulk in the course of transport, but without any commercial transaction in any intermediate country. The place or country of final destination is therefore not necessarily the place or country of unshipment.

3. **Arrangement of Countries.**—The countries are arranged in two divisions, namely—(a) British Countries (including Protectorates, Mandated Territories and Territories under Condominium) and (b) Foreign Countries. Within these divisions the arrangement is geographical under continents except that the dependencies and possessions of a Foreign Country are placed immediately after that country. The term United Kingdom is used to include Great Britain, Northern Ireland and the Isle of Man.

4. **Quantities and Values of Exports.**—Both quantities and values are based on the declarations of exporters, or their agents, which may be verified by Customs officials.

Quantities are not recorded in respect of all goods, but where goods are required to be entered by weight the quantities given represent the net weights of the goods exclusive of containers, &c.

The value of the Exports represents the cost of the goods to the purchaser abroad, including packing, inland and coastal transport in the United Kingdom, dock dues, loading charges, and all other costs, profits, charges and expenses (e.g., insurance and commission) accruing up to the point where the goods are deposited on the exporting vessel or at the land boundary of Northern Ireland, and is known as the " free on board " value.

5. **Parcel Post.**—Exports by Parcel Post from Bond or on Drawback are included, according to their description, with other goods exported or re-exported. All other exports by Parcel Post, are shown as such by estimated average values in the table in this volume.

6. **Goods excluded from Exports :—**

(i) Personal effects and parcels taken by passengers for private use or despatched to prisoners of war.

(ii) Ships' stores and bunkers if for use on the exporting vessel (see Note 7 (a)) and ballast of no commercial value.

(iii) British Government-owned stores exported for British Government use abroad.

(iv) Stores for the Navy, Army and Air Force Institutes, the Y.M.C.A., and other similar organisations, if consigned to a Military Control Officer.

(v) Seagoing vessels, not newly built, transferred to owners abroad.

(vi) Re-exported goods (see Note 7 (c)).

7. **Miscellaneous :—**

(a) **Bunker Fuel** (Coal, Coke, Manufactured Fuel and Oil Fuel) shipped in the United Kingdom for use on board steamers, &c., clearing for foreign trade (including fishing vessels) and for the use of foreign-going aircraft is not an " Export " in the ordinary acceptation of the term and is, accordingly, excluded from the table.

(b) **New Ships and Boats** built in the United Kingdom and sold to owners abroad, if not registered as British, or if so registered only for the purpose of delivery or transfer abroad, are included in the accounts of the Produce and Manufactures of the United Kingdom.

(c) **Imported Goods,** materials or articles, exported in the condition in which they were imported, and goods exported after having undergone operations which leave them essentially unchanged, e.g., simple blending, cleaning, drying, sorting, husking or shelling, repacking, bottling, &c., are not included in this table of Exports of the Produce and Manufactures of the United Kingdom ; but goods completed or further advanced towards completion in the United Kingdom, after being imported partly manufactured, but not including goods which have undergone operations which leave them essentially unchanged, are included in this table of Exports.
